ADPP Angola is an Angolan non-governmental organization. Established in 1986 and registered with the Ministry of Justice, ADPP works across four major sectors: health, education, agriculture and environment, and integrated development. Currently, ADPP Angola operates in 64 municipalities across the country, positively impacting the lives of approximately 1.3 million people, mainly in rural and suburban communities. ADPP maintains strong collaborative relationships with national and local government entities, international partners, business associates, and local leaders.

ADPP Angola is inviting suitably qualified and experienced persons to apply for the position of **Technical Director** for an expected USAID funded project to be implemented in Angola to provide HIV/AIDS prevention, care and treatment services in Cunene, Benguela, Lunda Sul and Huambo provinces.

This position is contingent upon the award of the opportunity to ADPP. The position is expected to be based in Luanda and will report to the ADPP National Project Coordinator. **Angolan nationals and/or residents in Angola are encouraged to apply, particularly female.**

**Job Summary / Responsibilities**

The Technical Director will be responsible for the technical oversight of the activities, including work planning and reporting, and should have demonstrated experience related to the management and implementation of public health programs. The Technical Director oversees all the programmatic and technical aspects of the project, including ensuring the technical quality of services. The Technical Director coordinates the teams in the provinces and monitors progress against the targets set. He/she will work closely with the Chief of Party.

Essential job functions include, but are not limited to:

- Coordinating day-to-day project activities according to the work plan and implementation strategy, including the management of sub-partners.
- Troubleshooting, as needed, to prevent disruptions in daily program activities.
- Supervising the implementation of activities ensuring quality and timely achievement of project goals.
- Working with the M&E Manager to ensure that activities and results are monitored and evaluated with regard to effectiveness, efficiency and impact of the program's components, and makes recommendations for improvement.
- Working with the M&E Manager to ensure that M&E systems and resulting data are of high quality, providing regular impact and process data for evidence-based decision making.
- Ensuring that lessons learned and best practices are well-documented and shared widely for scaling up and adaptation.
Qualifications and Experience

• A degree in public health, social sciences, social work, child development or related field. Master’s degree preferred. Strong emphasis will be put on direct, relevant experience in Angola.

• At least 5 years of background and experience in complex health and gender related programs at a senior level with experience in more than one technical area of the program, including community-based HIV/AIDS care and support, HIV testing services, HIV treatment, viral load suppression, family planning, reproductive health, maternal, newborn and child health, gender-based violence and stigma & discrimination reduction.

• Experience coordinating and collaborating with a broad set of stakeholders, including national and local government authorities, multi-lateral and international donors, and local and international NGOs.

• Demonstrated skills in strategic planning, supervising field teams, program management, implementation, reporting and monitoring and evaluation.

• Familiarity with Angola’s institutional, policy, and programming context for health.

• Fluency in English and Portuguese

To Apply
Please send a CV, motivational letter and 3 references to adpp.recrutamento.saude@adpp-angola.org no later than July 20, 2023. Candidate applications will be reviewed on a rolling basis. Only short-listed candidates will be contacted.
